Amthi, U.P, India 📍

Computer science engineering student with good programming skills.I am passionate about creating easy-to-use and fast developer tools that improve the day-to-day experience for engineers.Quick learner and understanding of different languages.

EDUCATION

○ **B.tech**
SMVD University

06/2018 – Present

PERSONAL PROJECTS

Pulkit's Eye(iOS app)
– My very first iOS game build using Swift 5. It's based on this amazing tutorial by Ray Wenderlich.This game challenges the user to slide the slider as close as possible to the given value. The closer it gets, the higher the points.

iOS Projects (09/2019 – Present)
– This is collection of iOS projects. It's based on this amazing tutorial by Ray Wenderlich and Angela Yu

titiksha-19 (06/2019 – 08/2019)
– This is the offical website of Titiksha 2k19. Titiksha is one of the largest technical festivals of North India.

Amethi(website)
– This is my first web projrct. I want to develop a city website using HTMl, CSS and Bootstrap

WORK EXPERIENCE

○ **Student Coordinator**
The CodeClub, SMVDU

08/2019 – Present
A student organisation formed to impart knowledge, experience and ideas to others.

┌ Tasks
– We at CodeClub try our best to impart knowledge related to Computer Science, our and our contacts experiences in that field. Also we discuss ideas to dig deeper to learn.

SKILLS

SwiftUI, Swift 5.1, UIKit, HTML, CSS, Bootstrap, Python, C++,Git

ORGANIZATIONS

The CodeClub, SMVDU (08/2019 – Present)

LANGUAGES

English
